Dear Richard

I want to thank you for the way you met such tight deadlines on 11 books in our crucial first semester student period this year - and did so without missing a beat on quality.

Ligare is a quite excellent printer and binder who combines top quality work with competitive prices. We are very happy that you produce the majority of the 40 to 50 books we publish each year and anticipate that this will continue into the future.

Best wishes,

Chris Holt
